

# GREEN HAIRSTREAK BUTTERFLY CORRIDOR

Photo by Matt Zlatuncih

*Plant a Coast Buckwheat (Eriogonum Latifolium) in your yard or steward a new site!*

*Spaces numbered in chronological order of planting date:*

1. 14th Ave at Pacheco - triangle, planted continuously since 2008
2. Aerial steps - planted continuously since 2008
3. 15th Ave at Noriega - planted continuously since 2008
4. 14th Ave at Noriega - newly planted in 2010

R - ROCKY OUTCROP

H - HAWK HILL

These are two of the last breeding grounds for the Green Hairstreak butterfly in San Francisco. Our goal is to engage neighbors to create a corridor to connect these populations.
