

CounterPULSE and City Lights Foundation presents

# SHAPING SAN FRANCISCO'S TALKS

February 24 • 7:30 p.m.

## Golf Courses, Parks, Natural Areas

co-sponsored by Nature in the City, [www.natureinthecity.org](http://www.natureinthecity.org)

Sharp Park Golf Course in Pacifica (owned by the city of San Francisco) has become a point of sharp controversy, pitting golfers against endangered species. Meanwhile the city's budget is strained by the impossibility of maintaining a failing, moribund golf course while recreational needs go unmet, and threats of endangered species and habitat lawsuits further jeopardize the city's strained resources. Come and talk about it! Casey Allen will give a thorough presentation.

Most Wednesdays at 7:30 p.m. at CounterPULSE, 1310 Mission Street (at 9th)  
415.626.2060, [www.counterpulse.org](http://www.counterpulse.org) • FREE

*Shaping San Francisco is now a wiki, awaiting YOUR contributions!*
